Hogyan pályázzunk a Horizont 2020 programban

A Horizont 2020 program valamennyi pályázati felhívását az [EU hivatalos lapján](#) kívül, az Európai Bizottság által működtetett **Research & Innovation Participant Portal**-on (a továbbiakban Participant Portal) találják meg az érdeklődők

A Participant Portal az Ön belépési pontja az EU által finanszírozott kutatási és innovációs projektek elektronikus adminisztrációjához és olyan szolgáltatásokat nyújt, amelyek felölelik a teljes pályázati életciklust. A pályázatok elkészítése és beadása kizárólag elektronikusan úton lehetséges! Ehhez minden szükséges információt megtalál a felhívásokban, fontos, hogy mindig figyeljen a kiadványok dátumára és a határidőkre.

Publication date: 2013-12-11
Deadline Date: 2014-04-15 17:00:00 (Brussels local time)
Total Call Budget: €185,200,000
Main Pillar: Societal Challenges
Status: Open
OJ reference: OJ C 361 of 11 December 2013

Topic: Clinical research on regenerative medicine
PHC-15-2014

The page includes a sidebar with navigation links for "Search Topics", "Calls", "Call Updates", "Other EU Programmes 2014-2020" (Research Fund for Coal & Steel, COSME, 3rd Health Programme, Consumer Programme), "FP7 & CIP Programmes 2007-2013" (Calls, Call Updates), and "Other Funding Opportunities".

Topic Description | [Topic Conditions & Documents](#) | [Submission Service](#)

Specific challenge: Translating basic knowledge on regenerative medicine into the clinic is held up by the difficulty in undertaking 'first in man' studies. Specific research is needed for proving safety, efficacy and repeatability of new treatments. The, very often iterative, dialogue between the relevant authorities and those developing regenerative medicine approaches is needed before specific regulatory requirements can be established.

As a new therapeutic field lacking established business models, financing is a particular obstacle to clinical-stage research in regenerative medicine. The challenge is to initiate a specific action to overcome this hurdle to in-patient research and to determine the potential of new regenerative therapies.

Scope: Proposals should focus on regenerative medicine therapies which are ready for clinical (in-patient) research. Proposals should have at the time of proposal submission the necessary ethical and regulatory authorisations to carry out the work or provide evidence of regulatory engagement and that such approval is close. Preference will be given to proposals which have or are closest to having approvals in place for clinical work to start. Since the objective is to test new regenerative therapies, proposals may address any disease or condition but a justification for the choice must be provided. Clinical work should represent a central part of the project.

The Commission considers that proposals requesting a contribution from the EU of between EUR 4 and 6 million would allow this specific challenge to be addressed appropriately. Nonetheless, this does not preclude submission and selection of proposals requesting other amounts.
